- AI & Automation
- Digital Marketing

## ~ CLOUD INFRA

CLOUD & INFRASTRUCTURE

# Scalable Cloud. Reliable Infrastructure.

We leverage world-class cloud platforms to build secure, scalable, high-performance applications with 99.9% uptime and global reach.

**Secure**  
Enterprise-grade security & compliance

**Scalable**  
On-demand scaling that grows with you

**High Performance**  
Optimized infrastructure for speed & reliability

**Global Reach**  
Deploy anywhere, serve everywhere

**Cost Efficient**  
Pay for what you use with smart optimization

POWERED BY LEADING CLOUD PLATFORMS

Amazon Web Services

- EC2, S3, RDS, Lambda
- Auto Scaling & Load Balancing
- High Availability & Backup

Microsoft Azure

- Virtual Machines
- Azure SQL, Storage, Functions
- Security & Compliance

Google Cloud

- Compute Engine
- Cloud Storage, Cloud SQL
- AI/ML & Data Analytics

Cloudflare

- CDN & Global Network
- DDoS Protection
- Web Application Firewall

DigitalOcean

- Droplets & Kubernetes
- Object Storage (Spaces)
- Simple, Fast & Developer Friendly

ESPERTO TECHNOLOGIES

**Secure**  
Always Protected

**Scalable**  
Built to Grow

**Reliable**  
99.9% Uptime

**Global**  
Serve Worldwide

**Backed Up**  
Always Available

Future-Ready Infrastructure  
to Power Your Success.

## RESEARCH

At **Esperto Technologies**, innovation is at the core of everything we build. Our Research & Innovation initiatives focus on exploring emerging technologies that enable secure, scalable, and future-ready digital solutions. We continuously evaluate advancements in **Artificial Intelligence (AI), Blockchain, Web3, Cyber Security, Cloud Computing, IoT, and Intelligent Automation** to help businesses stay ahead in a rapidly evolving digital world.

Our team actively researches enterprise blockchain applications, digital identity, smart contracts, secure cloud architectures, AI-powered automation, and next-generation business platforms. By combining modern technologies with practical business needs,

## COMPANY PROFILE

we develop innovative solutions that improve security, efficiency, transparency, and long-term scalability.

### Research Areas

- Artificial Intelligence & Machine Learning
- Blockchain & Smart Contracts
- Web3 & Digital Assets
- Cyber Security & Digital Identity
- Cloud Infrastructure & DevOps
- IoT & Intelligent Automation

*"Innovating today for a smarter, more secure tomorrow."*

## RECENT REPO

The screenshot displays the Bitbucket web interface. On the left is a navigation sidebar with options like 'For you', 'Recent', 'Starred', 'Pull requests', and 'Repositories'. The main content area shows the profile of 'partyush goyal' with a search bar and a '+ Create' button. Below this, a section titled 'Recent repositories' lists several repositories in a grid format, each with a code icon and a lock icon. The repositories listed are: models\_voohh, agrawalshadi, caz\_mob\_first, svccroorkee, mummyoga, agromec, ecommerce, esperto-web, manjyar, skingurudivya, skyhigh-new, skyhigh, compyvila, and agrawalvanshavali. A 'Show fewer • View all' link is visible at the top right of the repository list.
